

Mathematics 115 – F09: Sample Problems 1

These were all previously assigned in the classlog as practice problems. Write out solutions before checking the solution set. Compare your answers to the ones given in the solution set.

These are for practice and not to be handed in. We want to give examples of the form your solutions should have.

(1): 63, p. 48

(2): 29, p. 58

(3): 33, p. 58

(4): 53, p. 59
